SUMMARY

Software Developer with 2+ years of professional experience building scalable SaaS platforms, AI-powered applications, and full-stack web solutions. Experienced in React.js, Next.js, Vue.js, Nuxt.js, Node.js, TypeScript, MongoDB, and Redis. Skilled in developing responsive user interfaces, designing scalable REST APIs, integrating LLMs (OpenAI, Claude, Groq, Llama), optimizing application performance, and delivering production-ready software across frontend, backend, AI, and cloud infrastructure.

WORK EXPERIENCE

Software Developer

LCNC (Sep 2025 - Present)

Projects: Scoutance, DrapCode

- **Technologies:** React.js, Next.js, JavaScript, Vue.js, Nuxt.js, Node.js, Express.js, MongoDB, Redis, REST APIs, Bcrypt, Crypto
- Developed features for **React.js dashboard applications**, integrating REST APIs and optimizing frontend performance.
- Built and maintained **Nuxt.js server-side rendered (SSR)** marketing websites with reusable components, SEO optimization, and improved Core Web Vitals. Upgraded DrapCode marketing website from Nuxt 2 to Nuxt 4.
- Improved website performance by **42%** through code splitting, lazy loading, caching, image optimization, and Core Web Vitals optimization.
- Contributed to the React.js dashboard by implementing new features and integrating REST APIs.
- Developed full-stack applications using React.js, Vue.js, Nuxt.js, Node.js, MongoDB, and Redis within a microservice architecture.
- Built AI-powered no-code/low-code features using OpenAI, Claude, Groq, and Llama.
- Integrated Stripe, FreshBooks, QuickBooks, and Google Analytics using OAuth 2.0.
- Designed REST APIs and optimized MongoDB and Redis for SaaS applications.
- Built responsive, cross-browser compatible user interfaces optimized for desktop and mobile devices.

Software Developer

Techbeliever (May 2025 – August 2025)

Product-based | Real Money Gaming

- **Technologies:** React.js, JavaScript, Node.js, Express.js, MongoDB, PostgreSQL, Redis, REST APIs, Payment Gateway Integration, Bcrypt, Crypto
- Developed and enhanced features for the **Khiladi Adda, Bharat Rummy, and Admin Panel** applications across frontend and backend.
- Contributed to **React.js-based Admin Panel** development by building responsive UI components and integrating REST APIs.
- Built REST APIs, wallet management, and payment workflows using Node.js, MongoDB, and Redis.
- Optimized API performance by **40%** using batch processing and Redis caching, reducing response times to **4–5 ms**.
- Implemented KYC, TDS, and location-based compliance workflows for secure user onboarding and transactions.
- Replaced large Excel exports with Google Sheets streaming, improving reliability for **100K+ records**.
- Developed a private NPM package to improve code reusability and consistency across projects.
- Applied security best practices including Bcrypt, encryption, and rate limiting for secure applications.

Node Js Developer

Sartia Global (Jun 2024 – April 2025)

- **Technologies:** Node.js, MySQL, Sequelize ORM, Kafka, Socket.IO, Redis, Bcrypt, Crypto, Firebase, Priority Queue, Microservices Architecture, and Payment Gateway Integration.

- Developed and maintained microservice-based applications for **event management, financial management, and inventory systems**.
- Built REST APIs, authentication, and role-based access control using **JWT**.
- Developed a high-throughput notification system using **Kafka, Firebase**, email, SMS, and priority queues.
- Implemented real-time chat functionality using **Socket.IO** with Kafka-backed message processing.
- Engineered backend modules for financial reporting, banking, sales tracking, and inventory management.
- Applied security best practices including **Bcrypt**, encryption, and rate limiting for secure applications.

PROJECTS

YouHired – AI Developer Career Platform | (<https://www.youhired.cloud>)

- Built an AI-powered developer career platform using React, TypeScript, Node.js, MongoDB, and Redis.
- Built the **Next.js server-side rendered (SSR)** marketing website with SEO optimization and responsive design.
- Developed ATS Resume Builder, AI Resume Generator, Portfolio Builder, and Job Recommendation System.
- Integrated GitHub OAuth, one-click Vercel deployment, and AI-powered resume analysis.
- Developed reusable **React.js components using TypeScript, integrated REST APIs, optimized application performance**, and implemented responsive UI following component-based architecture.
- Implemented caching, authentication, analytics, and SEO optimization.
- Configured production deployments using PM2, Nginx, and Linux.

SKILLS

Frontend Skills: React.js, Next.js, Vue.js, Nuxt.js, JavaScript (ES6+), TypeScript, React Hooks, Context API, Routing, HTML5, CSS3, Flexbox, CSS Grid, Tailwind CSS, Bootstrap, Responsive Design, REST API Integration, Cross-browser Compatibility

Backend Skills: Node.js, Express.js, REST APIs, MongoDB, MySQL, PostgreSQL, Redis, Kafka, Socket.IO, JWT

AI: OpenAI, Claude, Groq, Llama, Prompt Engineering, AI Integration

Tools: Git, Github, Postman, Swagger, Vite

EDUCATION

Master of Computer Application (2022-2024) Galgotia College Of Engineering and Technology Percentage: 84.5

Bachelor of Computer Applications (2018-2021) Sido Kanhu Murmu University, Dumka Percentage: 79.2
